

## **CV Ole Broberg**

Ole Broberg is Associate Professor at the Technical University of Denmark (DTU), Department of Management Engineering. His research focusses on how ergonomics can contribute to architectural and engineering design processes of new workplaces. This includes Design Thinking in participatory ergonomics, work systems design, and sociotechnical systems analysis and design.

He has published extensively within the human factors and ergonomics field. He teaches participatory systems design and systems ergonomics at the Design & Innovation program at DTU.

Ole Broberg is an Associate Editor of the Human Factors and Ergonomics in Manufacturing & Service Industries journal. In 2004, he was awarded the Nordic Ergonomics Society Great Prize and in 2016 he was elected IEA Fellow by the International Ergonomics Association.

From 2015, he has served as Co-Chair of the IEA Technical Committee on Organizational Design and Management (ODAM).
